SOP-104 — Customer Walkaround

Forge Standard Operating Procedures v1.0

Section 2: Customer Experience

Purpose

Build trust by reviewing documented condition with the customer before keys change hands.

Scope

Performed at check-in and again at delivery. CS or lead tech conducts.

Procedure

Check-in walkaround

1. Walk vehicle with customer clockwise — front, passenger, rear, driver.
2. Point out each defect already noted; ask "anything we missed?"
3. Explain what areas will be worked on and what will not be touched.
4. Customer initials inspection form at completion.

Delivery walkaround

1. Review completed work panel by panel in QC lighting.
2. Demonstrate edges, seams, and care instructions.
3. Customer signs delivery checklist confirming acceptance.

Quality standards

- ☐ Zero "you scratched my car" disputes without pre-existing photo documentation
- ☐ Walkaround completed on 100% of retail jobs
