Warranty terms

Workmanship warranty

The installing shop warrants that services were performed in accordance with industry standards and manufacturer guidelines for the products installed.

Term	Details
Workmanship warranty period	_____ months / years from install date
Covered defects	Peeling, lifting, bubbling, or adhesion failure due to improper installation
Not covered	See exclusions below

Material warranty

Material warranties are provided by the product manufacturer where applicable. This certificate documents workmanship coverage by the installing shop and references manufacturer terms when supplied.

Product	Manufacturer warranty term	Registration required
		☐ Yes ☐ No ☐ N/A
		☐ Yes ☐ No ☐ N/A

Exclusions

The following are **not** covered under this workmanship warranty:

- ☐ Pre-existing paint, glass, or body damage documented before service
- ☐ Damage from accidents, collisions, vandalism, or environmental events
- ☐ Improper care, abrasive cleaners, or failure to follow aftercare instructions
- ☐ Modifications by third parties after install
- ☐ Normal wear, fading, or cosmetic changes per manufacturer specifications
- ☐ Commercial or fleet use beyond stated limits (if applicable)
- ☐ Removal and reinstallation by parties other than the issuing shop

Customer responsibilities

To maintain warranty coverage, the customer agrees to:

1. Follow all written and verbal aftercare instructions provided at delivery
2. Notify the shop promptly of any defect within the warranty period
3. Allow the shop reasonable opportunity to inspect and remedy covered claims
4. Not attempt self-repair of warranted installations

Claim procedure

1. Contact the shop within the warranty period with certificate # and description of issue
2. Provide photos if requested
3. Schedule inspection at shop location (or as mutually agreed)
4. Covered claims will be remedied at no charge for labor; material costs per manufacturer policy
