SOP-100 — Answering the Phone

Forge Standard Operating Procedures v1.0

Section 2: Customer Experience

Purpose

Deliver a consistent, professional first impression on every inbound call.

Scope

Customer service, front desk, and any staff answering the main shop line.

Procedure

Answer within 3 rings

1. Greeting: "Thank you for calling [Shop Name], this is [Name], how can I help you today?"
2. Speak clearly, smile — tone carries through the phone.
3. If you must place on hold: ask permission, hold under 60 seconds, thank them when returning.

Information capture

1. Capture: name, phone, email, vehicle year/make/model, service interest, timeline.
2. Enter lead in CRM before ending call — even if they are "just asking questions."
3. If unable to quote on the phone, schedule consultation or promise callback within 2 business hours.

Transfer & escalation

1. Technical questions beyond your authority → warm transfer to lead installer or manager with context.
2. Angry caller → remain calm, listen, do not argue. Escalate to manager per SOP-902 if needed.

Quality standards

- ☐ Answer rate ≥ 90% during business hours
- ☐ Every call logged in CRM same day
