SOP-001 — Company Mission & Core Values

Forge Standard Operating Procedures v1.0

Section 1: Company Operations

Purpose

Define why the shop exists and the non-negotiable values that govern every decision, interaction, and installation.

Scope

All owners, managers, installers, and customer-facing staff. Posted in break room and referenced during onboarding.

Responsibilities

Role	Responsibility
Owner / GM	Maintains mission statement; models values in daily decisions
All staff	Know mission and values; escalate conflicts with values to management

Procedure

Mission statement

1. Forge exists to deliver flawless automotive protection and restyling through disciplined craft, honest communication, and repeatable systems.
2. Every vehicle leaving the shop represents our reputation — quality is not optional.
3. We train installers to professional standards because shortcuts create comebacks, not profit.

Core values

1. **Craftsmanship** — Do the work right the first time. Rework is failure, not a second chance.
2. **Integrity** — Document condition honestly. Never sell what the vehicle does not need.
3. **Accountability** — Own mistakes immediately. Fix them before the customer discovers them.
4. **Respect** — Treat every customer vehicle as if it were your own.
5. **Continuous improvement** — Follow SOPs, then improve them through technical bulletins and QC data.

Checkpoint: New hires can recite mission and all five values within first week.

Quality standards

- ☐ Mission and values posted in shop and included in employee handbook
- ☐ Referenced in pre-shift huddles at least weekly
