SOP-004 — Shop Closing Procedure

Forge Standard Operating Procedures v1.0

Section 1: Company Operations

Purpose

Secure the facility, protect customer vehicles, and close out production records at end of day.

Scope

Last person on site or designated closing manager. Every business day.

Responsibilities

Role	Responsibility
Closing lead	Executes closing checklist and secures building
Installers	Complete bay cleanup before leaving

Procedure

Production closeout

1. All vehicles secured — keys in lockbox, covers on if overnight in bay.
2. Incomplete jobs documented on work order with photos and next-step notes.
3. Waste film, bottles, and sharps disposed per local regulations.
4. Tools returned to shadow boards; heat guns holstered and powered off.

Administrative closeout

1. CRM updated — job status, ETA changes, and customer texts sent.
2. Cash drawer balanced; deposits prepared per accounting schedule.
3. Tomorrow's appointments confirmed or flagged for follow-up.

Security

1. Exterior doors locked; bay doors down.
2. Alarm armed; verify camera system recording.
3. Final walkthrough — no vehicles running, no open chemicals, no lights left on in bays.

Quality standards

- ☐ Zero vehicles left unlocked overnight
- ☐ 100% of in-progress jobs have written status on work order
