SOP-902 — Customer Complaint

Forge Standard Operating Procedures v1.0

Section 10: Emergency Procedures

Purpose

Resolve customer dissatisfaction fairly, quickly, and with full documentation.

Scope

Any staff receiving a complaint. Manager owns resolution.

Procedure

Intake

1. Listen without interrupting; take notes.
2. Apologize for their experience — not necessarily admitting fault.
3. Schedule inspection within 48 hours; offer loaner options if available.

Investigation

1. Review check-in photos, QC records, and installer notes.
2. Inspect vehicle with customer present when possible.
3. Classify: legitimate defect, expectation mismatch, unrelated pre-existing.

Resolution

1. Remedy per warranty policy — rework, partial refund, or goodwill gesture.
2. Manager approves any concession over \$250.
3. Document resolution in CRM; customer signs if settlement involves release.

Quality standards

- ☐ First response within 4 business hours
- ☐ Resolution plan within 48 hours of inspection
